MCALPINE

McAlpine Super Strength Gloves can tackle even the toughest jobs. Best of all, our medical grade, powder-free Black Nitrile keeps your hands **comfortable & sweat-free** for longer.

With textured fingertips, our **Black Nitrile** gloves protect you from a huge range of chemicals, solvents and grease without sacrificing grip!

Now more environmentally friendly! Once fully disposed of our gloves fully biodegrade 20x faster than standard nitrile gloves. That's years, instead of centuries! **Protecting** the environment, and you, without sacrificing quality.

Available in Medium (GL-M), Large (GL-L) and X-Large (GL-XL).
